km:	<input type="text"/>

commissions the laboratory mentioned above to examine the following samples for mineral nitrogen and the marked parameters. **Unless otherwise agreed, the valid standard price lists apply.** Non-standard sample taking and/or sample transport may have an influence on the test results. The invoice recipient receives the test results. The customer agrees to this. The GTCs apply (<http://www.agrolab.com/de/agb.html>). **Only the information on this form are used for the report.** 3) method according to VDLUFA "CAL". If a different method is required please contact us in advance!

4) The cultivation must be indicated for a correct evaluation of the nutrient content A: field / W: pasture; if not stated field is assumed.

5) only possible together with standard analysis (pH, P, K, Mg) 6) only possible together with Nmin

It is recommended to keep a copy of the filled in order form after sending the samples.

sample no.	field name	field no.	depth (cm)	barcode label (transferred from soil bag)	additional analysis					
					sulphur Smin ⁶	pH, P, K, Mg ³	organic matter ⁵	C/N ratio ⁵	B, Na, Mn Cu, Zn ⁵	A: field ⁴ W: pasture
			0-30							
			30-60							
			stone content % (customer information):	HF/VF	60-90					
			0-30							
			30-60							
			stone content % (customer information):	HF/VF	60-90
