Additional Information

In the AGROLAB **bottle set lists** you will find all the information about the bottles and the associated parameters. Please also take a look at our flyer "**AGROLAB bottle set and transport system**". There you will find out how to use our transport system correctly to ensure that your samples are transported safely and undamaged to our laboratory. All documents can be found in the downloads section of our website.

Please use only our specified bottles when sending samples to AGROLAB; this is the only way we can ensure the quality of sampling, dispatch and subsequent analysis.. **Please do not paste over or overwrite the barcode on the bottles.** The bottles remain the property of the AGROLAB GROUP.

Be completed by the laboratory
